Correlating ionic liquids density over wide range of temperature and pressure by volume shift concept

Hamidreza Bagheri, Sattar Ghader

PII: S0167-7322(16)32922-1
DOI: doi: [10.1016/j.molliq.2017.03.101](https://doi.org/10.1016/j.molliq.2017.03.101)
Reference: MOLLIQ 7136

To appear in: *Journal of Molecular Liquids*

Received date: 27 September 2016

Revised date: 18 March 2017

Accepted date: 27 March 2017

Please cite this article as: Hamidreza Bagheri, Sattar Ghader , Correlating ionic liquids density over wide range of temperature and pressure by volume shift concept. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Molliq(2017), doi: [10.1016/j.molliq.2017.03.101](https://doi.org/10.1016/j.molliq.2017.03.101)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Correlating ionic liquids density over wide range of temperature and pressure
by volume shift concept**
