

Accepted Manuscript

Thermodynamic parameters on corresponding solid-liquid equilibrium of Hydroxyapatite in pure and mixture organic solvents

Yong Chen, Xin Xu, Li Xie

PII: S0167-7322(16)33692-3
DOI: doi:[10.1016/j.molliq.2016.12.082](https://doi.org/10.1016/j.molliq.2016.12.082)
Reference: MOLLIQ 6765

To appear in: *Journal of Molecular Liquids*

Received date: 20 November 2016
Revised date: 23 December 2016
Accepted date: 23 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title page**Title:**

Thermodynamic parameters on corresponding solid-liquid equilibrium of Hydroxyapatite in pure and mixture organic solvents

Authors: Yong Chen^a, Xin Xu^{a,b,*}, Li Xie^c
