Estimation of viscosities of pure ionic liquids using an artificial neural network based on only structural characteristics

Mohammad-Reza Fatehi, Sona Raeissi, Dariush Mowla

PII: S0167-7322(16)32698-8
DOI: doi:[10.1016/j.molliq.2016.11.133](https://doi.org/10.1016/j.molliq.2016.11.133)
Reference: MOLLIQ 6680

To appear in: *Journal of Molecular Liquids*

Received date: 17 September 2016
Accepted date: 29 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Estimation of viscosities of pure ionic liquids using an artificial
neural network based on only structural characteristics
