Assessment of dietary exposure and effect in humans: The role of NMR

John P.M. van Duynhoven, Doris M. Jacobs

PII: S0079-6565(16)30005-X

DOI: <http://dx.doi.org/10.1016/j.pnmrs.2016.03.001>

Reference: JPNMRS 1420

To appear in: *Progress in Nuclear Magnetic Resonance Spectroscopy*

Received Date: 27 December 2015

Accepted Date: 19 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Assessment of dietary exposure and effect in humans: the role of NMR
