

Contents

p 102

pp 11-23

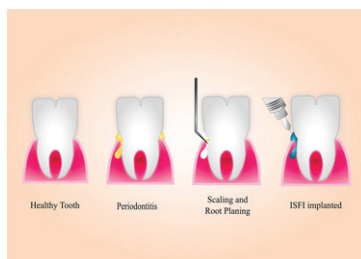

pp 49–67

Solvent removal precipitation based *in situ* forming implant for controlled drug delivery in periodontitis

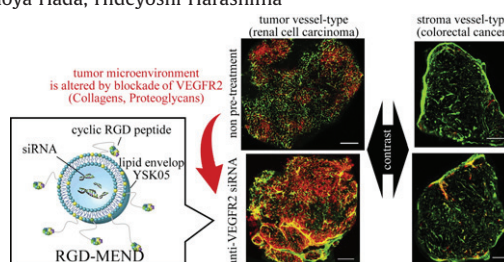

pp 75–81

Siddhesh Juvekar, Harsha Kathpalia *

**RESEARCH PAPERS****Modality of tumor endothelial VEGFR2 silencing-mediated improvement in intratumoral distribution of lipid nanoparticles**

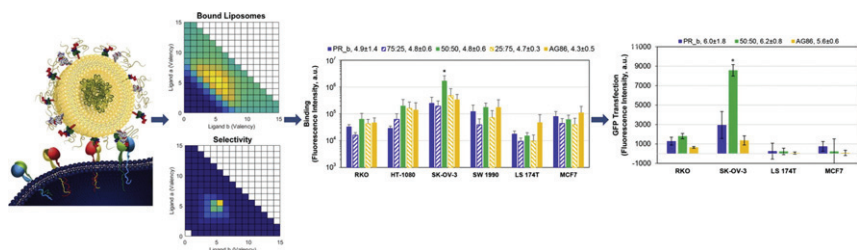

pp 1–10

Shoshiro Yamamoto, Akari Kato, Yu Sakurai, Tomoya Hada, Hideyoshi Harashima *

**Dual-ligand $\alpha_5\beta_1$ and $\alpha_6\beta_4$ integrin targeting enhances gene delivery and selectivity to cancer cells**

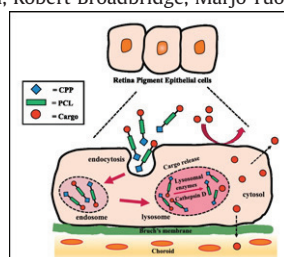

pp 24–36

Rachel M. Levine, Efrosini Kokkoli *

**Differentially cleaving peptides as a strategy for controlled drug release in human retinal pigment epithelial cells**

pp 37–48

Madhushree Bhattacharya *, Sanjay Sarkhel, Jonne Peltoniemi, Robert Broadbridge, Marjo Tuomainen, Seppo Auriola, Arto Urtti
