

Accepted Manuscript

Antibacterial activity of novel peptide derived from Cry1Ab16 toxin and development of LbL films for foodborne pathogens control

Alexandra Plácido, Idalina Bragança, Mariela Marani, Alyne Rodrigues de Araujo, Andreanne Gomes Vasconcelos, Krystallenia Batziou, Valentina F. Domingues, Peter Eaton, José Roberto S.A. Almeida Leite, Cristina Delerue-Matos

PII: S0928-4931(16)31604-6

DOI: doi: [10.1016/j.msec.2017.02.027](https://doi.org/10.1016/j.msec.2017.02.027)

Reference: MSC 7358

To appear in: *Materials Science & Engineering C*

Received date: 4 October 2016

Revised date: 1 December 2016

Accepted date: 7 February 2017

Please cite this article as: Alexandra Plácido, Idalina Bragança, Mariela Marani, Alyne Rodrigues de Araujo, Andreanne Gomes Vasconcelos, Krystallenia Batziou, Valentina F. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
