Relation between chemical processes and mechanical properties of sprayed cementitious matrices containing accelerators

Renan P. Salvador, Sergio H.P. Cavalaro, Renata Monte, Antonio D. de Figueiredo

PII: S0958-9465(16)30391-2

DOI: [10.1016/j.cemconcomp.2017.02.002](https://doi.org/10.1016/j.cemconcomp.2017.02.002)

Reference: CECO 2778

To appear in: *Cement and Concrete Composites*

Received Date: 21 July 2016

Revised Date: 28 October 2016

Accepted Date: 14 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
