Enhance interfacial properties of glass fiber/epoxy composites with environment-friendly water-based hybrid sizing agent

Yubing Dong, Yaofeng Zhu, Yongzhen Zhao, Fuyao Liu, Enliang Wang, Yaqin Fu

PII: S1359-835X(17)30316-0

DOI: <http://dx.doi.org/10.1016/j.compositesa.2017.08.016>

Reference: JCOMA 4767

To appear in: *Composites: Part A*

Received Date: 14 April 2017

Revised Date: 8 August 2017

Accepted Date: 15 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enhance interfacial properties of glass fiber/epoxy composites with
environment-friendly water-based hybrid sizing agent**
