

## Accepted Manuscript

Development of a continuum damage model for fatigue life prediction of laminated composites

Bijan Mohammadi, Babak Fazlali, Davood Salimi-Majd

PII: S1359-835X(16)30403-1

DOI: <http://dx.doi.org/10.1016/j.compositesa.2016.11.021>

Reference: JCOMA 4493

To appear in: *Composites: Part A*

Received Date: 6 August 2016

Revised Date: 9 November 2016

Accepted Date: 19 November 2016

Please cite this article as: Mohammadi, B., Fazlali, B., Salimi-Majd, D., Development of a continuum damage model for fatigue life prediction of laminated composites, *Composites: Part A* (2016), doi: <http://dx.doi.org/10.1016/j.compositesa.2016.11.021>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Development of a continuum damage model for fatigue life prediction of laminated composites
