Title: *In situ* Monitoring of Crevice Corrosion Morphology of Type 316L Stainless Steel and Repassivation Behavior Induced by Sulfate Ions

Authors: Takahito Aoyama, Yu Sugawara, Izumi Muto, Nobuyoshi Hara

PII: S0010-938X(17)30780-1
DOI: <http://dx.doi.org/doi:10.1016/j.corsci.2017.08.005>
Reference: CS 7158

To appear in:

Received date: 1-5-2017
Revised date: 24-7-2017
Accepted date: 9-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

In situ Monitoring of Crevice Corrosion Morphology of Type 316L Stainless Steel and
Repassivation Behavior Induced by Sulfate Ions

Authors and affiliations

Takahito Aoyama*, Yu Sugawara*, Izumi Muto, Nobuyoshi Hara

sugawaray@material.tohoku.ac.jp (Y. Sugawara)

Highlights

- Repassivation behavior of crevice corrosion on Type 316L was observed when the solution was changed from 1 M NaCl to 0.88 M Na₂SO₄ or to 1 M NaCl-0.88 M
