Title: Effect of high temperature oxidation on the radiative properties of HfC-based ceramics

Authors: Ludovic Charpentier, Marianne Balat-Pichelin, Jean-Louis Sans, Diletta Sciti, Laura Silvestroni

PII: S0010-938X(16)31174-X
DOI: <http://dx.doi.org/doi:10.1016/j.corsci.2017.07.007>
Reference: CS 7138

To appear in:

Received date: 14-11-2016
Revised date: 12-7-2017
Accepted date: 13-7-2017

Please cite this article as: Ludovic Charpentier, Marianne Balat-Pichelin, Jean-Louis Sans, Diletta Sciti, Laura Silvestroni, Effect of high temperature oxidation on the radiative properties of HfC-based ceramics, Corrosion Science <http://dx.doi.org/10.1016/j.corsci.2017.07.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of high temperature oxidation on the radiative properties of HfC-based ceramics
