This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The rotating cylinder electrode for studies of corrosion engineering and protection of metals - an illustrated review

F.C. Walsh, ^{1,2,*} G. Kear, ^{1,3} A.H. Nahlé, ⁴ J.A. Wharton ², L.F. Arenas ¹

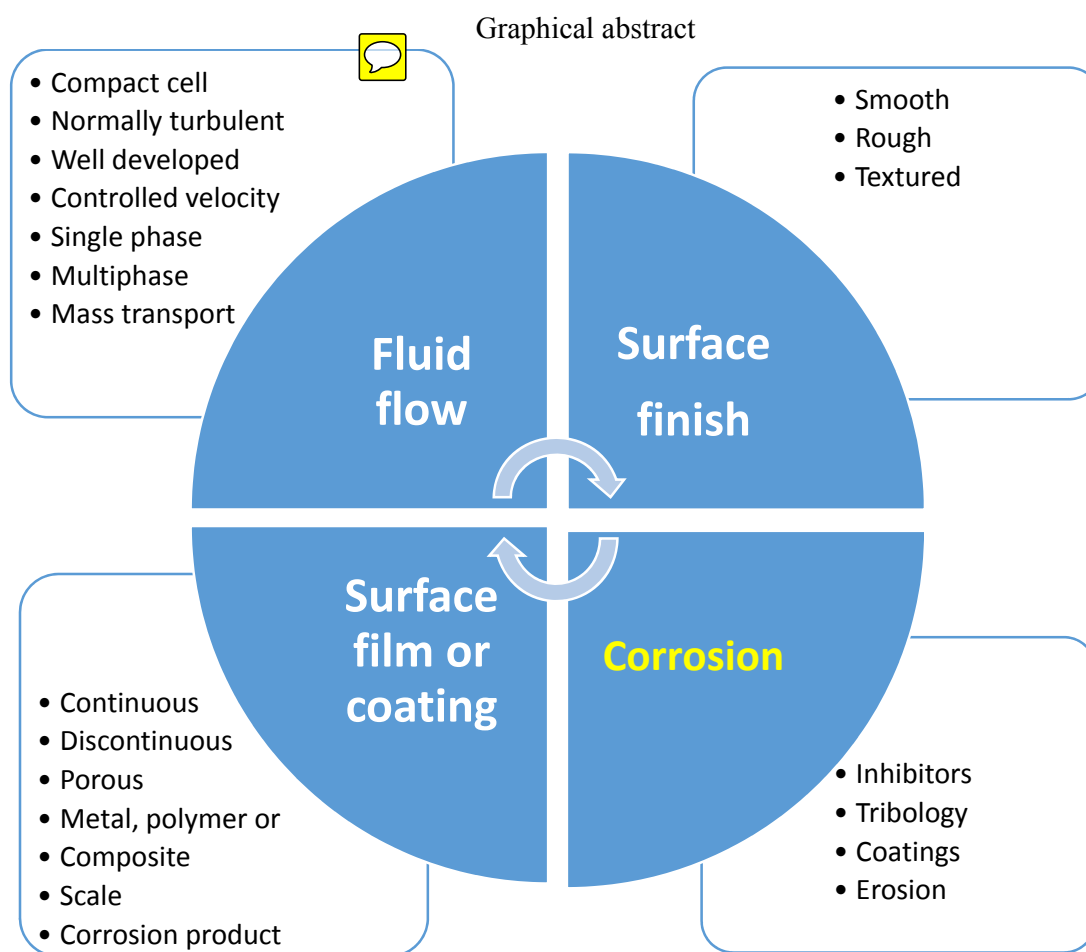

¹. Electrochemical Engineering Laboratory, Engineering Sciences, University of Southampton, UK.

². National Centre for Advanced Tribology at Southampton, Engineering Sciences, University of Southampton, UK.

³. Present address: Wellington, New Zealand.

⁴. Department of Chemistry, College of Sciences, University of Sharjah, Sharjah, PO Box 27272 United Arab Emirates.
