Title: Hydrogen permeation behavior in relation to microstructural evolution of low carbon bainitic steel weldments

Author: Liangyun Lan Xiangwei Kong Zhiyong Hu Chunlin Qiu Dewen Zhao Linxiu Du

PII: S0010-938X(16)30386-9
DOI: <http://dx.doi.org/doi:10.1016/j.corsci.2016.07.025>
Reference: CS 6854

To appear in:

Received date: 18-4-2016
Revised date: 17-7-2016
Accepted date: 22-7-2016

Please cite this article as: Liangyun Lan, Xiangwei Kong, Zhiyong Hu, Chunlin Qiu, Dewen Zhao, Linxiu Du, Hydrogen permeation behavior in relation to microstructural evolution of low carbon bainitic steel weldments, Corrosion Science <http://dx.doi.org/10.1016/j.corsci.2016.07.025>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hydrogen permeation behavior in relation to microstructural evolution of low carbon

bainitic steel weldments
