Title: Tailoring sintering step allows high performance for solid oxide fuel cells prepared by a tri-layer co-firing process

Authors: Hailu Dai, Shahid P. Shafi, Shoucheng He, Lei Bi

PII: S0025-5408(16)32717-9

DOI: <http://dx.doi.org/doi:10.1016/j.materresbull.2017.04.038>

Reference: MRB 9299

To appear in: *MRB*

Received date: 31-12-2016

Revised date: 15-4-2017

Accepted date: 22-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Tailoring sintering step allows high performance for solid oxide fuel cells prepared by a tri-layer co-firing process
