

Accepted Manuscript

A precise theoretical method for high- throughput screening of novel organic electrode materials for Li-ion batteries

Wanwan Zhang, Pengkun Sun, Shaorui Sun

PII: S2352-8478(16)30093-4

DOI: [10.1016/j.jmat.2016.11.009](https://doi.org/10.1016/j.jmat.2016.11.009)

Reference: JMAT 84

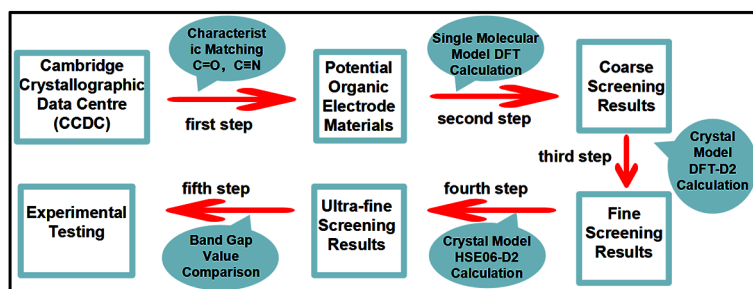

To appear in: *Journal of Materiomics*

Received Date: 26 August 2016

Accepted Date: 29 November 2016

Please cite this article as: Zhang W, Sun P, Sun S, A precise theoretical method for high- throughput screening of novel organic electrode materials for Li-ion batteries, *Journal of Materiomics* (2017), doi: 10.1016/j.jmat.2016.11.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
