

# Accepted Manuscript

Can a light harvesting material be always common in photocatalytic and photovoltaic applications?

Prasenjit Kar, Tuhin Kumar Maji, Jayita Patwari, Samir Kumar Pal

PII: S0254-0584(17)30551-5

DOI: 10.1016/j.matchemphys.2017.07.042

Reference: MAC 19849

To appear in: *Materials Chemistry and Physics*

Received Date: 22 December 2016

Revised Date: 21 June 2017

Accepted Date: 11 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Can a light harvesting material be always common in photocatalytic and photovoltaic applications?**
