

# Accepted Manuscript

Synthesis of ultra-long cadmium telluride nanotubes *via* combinational chemical transformation

Kee-Ryung Park, Hong-Baek Cho, Yong-Ho Choa

PII: S0254-0584(16)30951-8

DOI: [10.1016/j.matchemphys.2016.12.041](https://doi.org/10.1016/j.matchemphys.2016.12.041)

Reference: MAC 19372

To appear in: *Materials Chemistry and Physics*

Received Date: 18 July 2016

Revised Date: 16 December 2016

Accepted Date: 19 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical Abstract

High throughput synthesis of CdTe nanotubes by combinational process
