Preparation of Bipolar Membranes by Electrospinning

Jiefeng Pan, Linxiao Hou, Qiuyue Wang, Yubin He, Liang Wu, Abhishek N. Mondal, Tongwen Xu

PII: S0254-0584(16)30846-X

DOI: [10.1016/j.matchemphys.2016.11.023](https://doi.org/10.1016/j.matchemphys.2016.11.023)

Reference: MAC 19289

To appear in: *Materials Chemistry and Physics*

Received Date: 17 August 2016

Revised Date: 08 November 2016

Accepted Date: 10 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Research highlights**

- ▶ Bipolar membranes were prepared through electrospinning followed by post-treatment.
- ▶ As-prepared membranes were successfully applied in electrodialysis for production of acid and base.
- ▶ Electrospun membranes exhibit better performance than the casting ones.
