Self-Powered Fall Detection System Using Pressure Sensing Triboelectric Nanogenerators

Seung-Bae Jeon, Young-Hoon Nho, Sang-Jae Park, Weon-Guk Kim, Il-Woong Tcho, Daewon Kim, Dong-Soo Kwon, Yang-Kyu Choi

PII: S2211-2855(17)30566-9
DOI: <http://dx.doi.org/10.1016/j.nanoen.2017.09.028>
Reference: NANOEN2204

To appear in: *Nano Energy*

Received date: 24 August 2017
Revised date: 13 September 2017
Accepted date: 13 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
