

## Author's Accepted Manuscript

Research progress on conducting polymer based supercapacitor electrode materials

Qiufeng Meng, Kefeng Cai, Yuanxun Chen,  
Lidong Chen

PII: S2211-2855(17)30242-2  
DOI: <http://dx.doi.org/10.1016/j.nanoen.2017.04.040>  
Reference: NANOEN1920

To appear in: *Nano Energy*

Received date: 28 February 2017  
Revised date: 18 April 2017  
Accepted date: 19 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and a review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
