Characterisation of strain-induced precipitation behaviour in microalloyed steels during thermomechanical controlled processing

Peng Gong, Eric J. Palmiere, W. Mark Rainforth

PII: S1044-5803(16)31299-2
DOI: doi:[10.1016/j.matchar.2016.12.009](https://doi.org/10.1016/j.matchar.2016.12.009)
Reference: MTL 8495

To appear in: *Materials Characterization*

Received date: 3 August 2016
Revised date: 11 December 2016
Accepted date: 14 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Characterisation of strain-induced precipitation behaviour in microalloyed steels
during thermomechanical controlled processing**
