This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of Thermal Ageing on the Creep Behaviour of a P92 Martensitic Steel

Saber Khayatzadeh ^{a,b,*}, David W.J. Tanner ^c, Christopher E. Truman ^a, Peter E.J. Flewitt ^d, David J. Smith ^{a2}

Accepted manuscript

² In memory of Professor David Smith, who died as the result of a tragic climbing accident during the period this work was undertaken.
