

Author's Accepted Manuscript

Discontinuous yielding behavior and microstructure evolution during hot deformation of TC11 alloy

L. Jing, R.D. Fu, Y.P. Wang, L. Qiu, B. Yan

PII: S0921-5093(17)31063-8
DOI: <http://dx.doi.org/10.1016/j.msea.2017.08.048>
Reference: MSA35396

To appear in: *Materials Science & Engineering A*

Received date: 18 January 2017
Revised date: 12 August 2017
Accepted date: 14 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Discontinuous yielding behavior and microstructure evolution during hot
deformation of TC11 alloy**
