Microstructure and strength correlation of pure Al and Al-Mg syntactic foam composites subject to uniaxial compression

Yingfei Lin, Qiang Zhang, Fuyang Zhang, Jing Chang, Gaohui Wu

PII: S0921-5093(17)30522-1
DOI: <http://dx.doi.org/10.1016/j.msea.2017.04.060>
Reference: MSA34961

To appear in: *Materials Science & Engineering A*

Received date: 15 February 2017
Revised date: 13 April 2017
Accepted date: 14 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
