Towards engineering mechanical properties through stabilization of austenite in ultrafine grained martensite–austenite dual phase steel processed by accumulative roll bonding

S. Tirekar, H.R. Jafarian, A.R. Eivani

PII: S0921-5093(16)31528-3  
DOI: <http://dx.doi.org/10.1016/j.msea.2016.12.039>  
Reference: MSA34470

To appear in: *Materials Science & Engineering A*

Received date: 14 October 2016  
Revised date: 8 December 2016  
Accepted date: 9 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Towards engineering mechanical properties through stabilization of austenite in ultrafine grained martensite–austenite dual phase steel processed by accumulative roll bonding**

S. Tirekar, H. R. Jafarian, A. R. Eivani
