Synthesis of zinc oxide nanorods from chemical bath deposition at different pH solutions and impact on their surface properties

Sanjay Gawali, Satish. A. Mahadik

PII: S0925-8388(17)30263-3

DOI: [10.1016/j.jallcom.2017.01.228](https://doi.org/10.1016/j.jallcom.2017.01.228)

Reference: JALCOM 40595

To appear in: *Journal of Alloys and Compounds*

Received Date: 9 December 2016

Revised Date: 19 January 2017

Accepted Date: 21 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Annealing effect on their surface properties.
