Effects of high concentration of Benzotriazole on corrosion behavior of nanostructured titania-alumina composite coating deposited on Al 2024 by sol-gel method

Maryam Sadat Sharifiyan, Ali Shanaghi, Hadi Moradi, Paul K. Chu

PII: S0257-8972(17)30386-9
DOI: doi: [10.1016/j.surfcoat.2017.04.041](https://doi.org/10.1016/j.surfcoat.2017.04.041)
Reference: SCT 22284
To appear in: *Surface & Coatings Technology*
Received date: 5 August 2016
Revised date: 5 January 2017
Accepted date: 17 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effects of high concentration of *Benzotriazole* on corrosion behavior of
nanostructured titania-alumina composite coating deposited on Al 2024 by sol-gel method**
