

## Accepted Manuscript

Variability of graphene devices fabricated using graphene inks:  
Atomic force microscope tips

Fei Hui, Pujashree Vajha, Yanfeng Ji, Chengbin Pan, Enric Grustan-Gutierrez, Huiling Duan, Peng He, Guqiao Ding, Yuanyuan Shi, Mario Lanza

PII: S0257-8972(16)31308-1  
DOI: doi: [10.1016/j.surfcoat.2016.12.020](https://doi.org/10.1016/j.surfcoat.2016.12.020)  
Reference: SCT 21877  
To appear in: *Surface & Coatings Technology*  
Received date: 15 August 2016  
Revised date: 20 November 2016  
Accepted date: 5 December 2016

Please cite this article as: Fei Hui, Pujashree Vajha, Yanfeng Ji, Chengbin Pan, Enric Grustan-Gutierrez, Huiling Duan, Peng He, Guqiao Ding, Yuanyuan Shi, Mario Lanza , Variability of graphene devices fabricated using graphene inks: Atomic force microscope tips. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
