This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Defect growth in multilayer Chromium
Nitride/Niobium Nitride coatings produced by
combined High Power Impulse Magnetron
Sputtering and Unbalance Magnetron Sputtering
technique**

Running title: Growth defects in HIPIMS/UBM CrN/NbN multilayer coatings

Running Authors: Biswas et al.
