

## Accepted Manuscript

The study of creation of polymerizable species in radio frequency hydrocarbon plasma polymerization in a closed reactor system

Yin-Che Huang, Qingsong Yu, Chun Huang

PII: S0040-6090(16)00137-1  
DOI: doi: [10.1016/j.tsf.2016.02.038](https://doi.org/10.1016/j.tsf.2016.02.038)  
Reference: TSF 35038

To appear in: *Thin Solid Films*

Received date: 30 October 2015  
Revised date: 19 February 2016  
Accepted date: 19 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Submitted to *Thin Solid Films*
