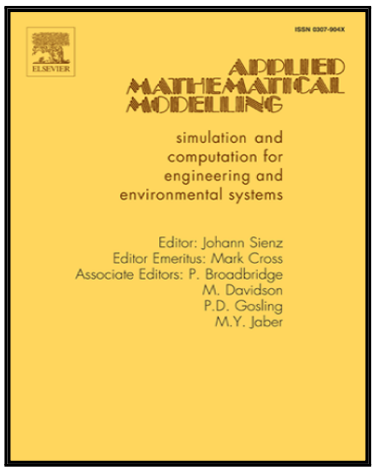
Accepted Manuscript



Formal solution of an interval system of linear equations with an application in static responses of structures with interval forces

S. Chakraverty, M. Hladík, D. Behera

PII: S0307-904X(17)30327-X
DOI: 10.1016/j.apm.2017.05.010
Reference: APM 11762

To appear in: *Applied Mathematical Modelling*

Received date: 3 May 2016
Revised date: 12 April 2017
Accepted date: 8 May 2017

Please cite this article as: S. Chakraverty, M. Hladík, D. Behera, Formal solution of an interval system of linear equations with an application in static responses of structures with interval forces, *Applied Mathematical Modelling* (2017), doi: 10.1016/j.apm.2017.05.010

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Modelling uncertainties by interval methods.
- Two approaches to solving interval linear equations.
- Analysis of uncertain static responses of structures.
