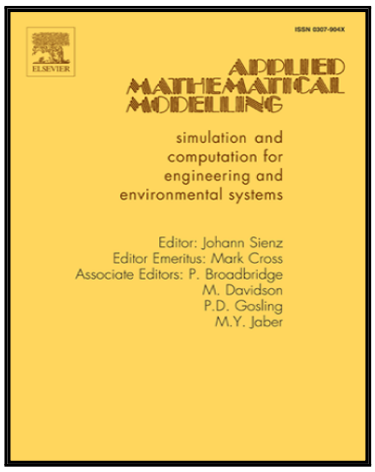
Accepted Manuscript



Fuzzy score technique for the optimal location of wind turbines installations

Ching-Ter Chang

PII: S0307-904X(17)30112-9
DOI: 10.1016/j.apm.2017.02.016
Reference: APM 11604

To appear in: *Applied Mathematical Modelling*

Received date: 6 June 2015
Revised date: 12 September 2016
Accepted date: 13 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A new method for treating the salient success and the survival aspiration level> A utility function is introduced to the proposed model >Management implications are added to understand the role of the proposed method
