Accepted Manuscript

A Stochastic Generation Method for the Two-dimensional Geometry Modelling of Concretes with High Contents of Star Domain Aggregates

Laizhong Song, Bo Yu, Yuan Jiang, Gang Peng

 PII:
 S0307-904X(16)30209-8

 DOI:
 10.1016/j.apm.2016.04.008

 Reference:
 APM 11129

To appear in: Applied Mathematical Modelling

Received date:19 January 2014Revised date:26 February 2016Accepted date:13 April 2016

Please cite this article as: Laizhong Song, Bo Yu, Yuan Jiang, Gang Peng, A Stochastic Generation Method for the Two-dimensional Geometry Modelling of Concretes with High Contents of Star Domain Aggregates, *Applied Mathematical Modelling* (2016), doi: 10.1016/j.apm.2016.04.008

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- The suggestions and comments by two reviewers have been corresponded point by point;
- The scientific writing and formulation have been improved;
- The English writing has been improved.
