Priority of domestic biomass resources for energy: Importance of national environmental targets in a climate perspective

Davide Tonini, Carl Vadenbo, Thomas Fruergaard Astrup

PII: S0360-5442(17)30211-6

DOI: [10.1016/j.energy.2017.02.037](https://doi.org/10.1016/j.energy.2017.02.037)

Reference: EGY 10330

To appear in: *Energy*

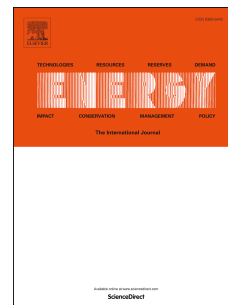

Received Date: 22 September 2016

Revised Date: 27 January 2017

Accepted Date: 6 February 2017

Please cite this article as: Tonini D, Vadenbo C, Astrup TF, Priority of domestic biomass resources for energy: Importance of national environmental targets in a climate perspective, *Energy* (2017), doi: 10.1016/j.energy.2017.02.037.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Priority of domestic biomass resources for energy:
2 Importance of national environmental targets in a
3 climate perspective
