Accepted Date: 22 January 2017

Please cite this article as: Alireza Majzoobi, Amin Khodaei, Application of Microgrids in Providing Ancillary Services to the Utility Grid, *Energy* (2017), doi: 10.1016/j.energy.2017.01.113

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Microgrid optimal scheduling for providing ancillary services to the utility grid.
- Local management and mitigation of distribution net load variations.
- Offering various support services: ramping, load following, frequency regulation.
- Proven effectiveness and accuracy in capturing net load variations.
