Techno-economic assessment of high-solid simultaneous saccharification and fermentation and economic impacts of yeast consortium and on-site enzyme production technologies

Sutamat Khajeeram, Pornkamol Unrean

PII: S0360-5442(17)30090-7

DOI: [10.1016/j.energy.2017.01.090](https://doi.org/10.1016/j.energy.2017.01.090)

Reference: EGY 10225

To appear in: *Energy*

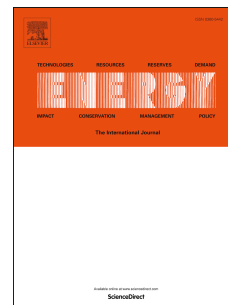

Received Date: 19 April 2016

Revised Date: 15 December 2016

Accepted Date: 17 January 2017

Please cite this article as: Khajeeram S, Unrean P, Techno-economic assessment of high-solid simultaneous saccharification and fermentation and economic impacts of yeast consortium and on-site enzyme production technologies, *Energy* (2017), doi: 10.1016/j.energy.2017.01.090.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Techno-economic assessment of high-solid simultaneous saccharification and fermentation**
2 **and economic impacts of yeast consortium and on-site enzyme production technologies**
