Research and application of a combined model based on multi-objective optimization for multi-step ahead wind speed forecasting

Jianzhou Wang, Jiani Heng, Liye Xiao, Chen Wang

PII: S0360-5442(17)30333-X

DOI: [10.1016/j.energy.2017.02.150](https://doi.org/10.1016/j.energy.2017.02.150)

Reference: EGY 10443

To appear in: *Energy*

Received Date: 11 September 2016

Revised Date: 19 February 2017

Accepted Date: 26 February 2017

Please cite this article as: Wang J, Heng J, Xiao L, Wang C, Research and application of a combined model based on multi-objective optimization for multi-step ahead wind speed forecasting, *Energy* (2017), doi: 10.1016/j.energy.2017.02.150.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Research and application of a combined model based on**
2 **multi-objective optimization for multi-step ahead wind speed**
3 **forecasting**
