Safety Analysis of Nuclear Containment Vessels Subjected to Strong Earthquakes and Subsequent Tsunamis

Feng Lin, Associate professor, Hongzhi Li, Graduate Student

PII: S1738-5733(17)30240-1

DOI: [10.1016/j.net.2017.03.008](https://doi.org/10.1016/j.net.2017.03.008)

Reference: NET 345

To appear in: *Nuclear Engineering and Technology*

Received Date: 1 July 2016

Revised Date: 27 February 2017

Accepted Date: 31 March 2017

Please cite this article as: F. Lin, H. Li, Safety Analysis of Nuclear Containment Vessels Subjected to Strong Earthquakes and Subsequent Tsunamis, *Nuclear Engineering and Technology* (2017), doi: 10.1016/j.net.2017.03.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
