Spatial analysis of the ecological relationships of urban carbon metabolism based on an 18-node network model

Linlin Xia, Yang Liu, Xinjing Wang, Xin Tian, Qiong Wu, Yan Zhang, Gengyuan Liu, Yan Hao

PII: S0959-6526(17)32066-8

DOI: [10.1016/j.jclepro.2017.09.077](https://doi.org/10.1016/j.jclepro.2017.09.077)

Reference: JCLP 10582

To appear in: *Journal of Cleaner Production*

Received Date: 19 October 2016

Revised Date: 6 September 2017

Accepted Date: 8 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Spatial analysis of the ecological relationships of urban carbon metabolism based on
2 an 18-node network model
