This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

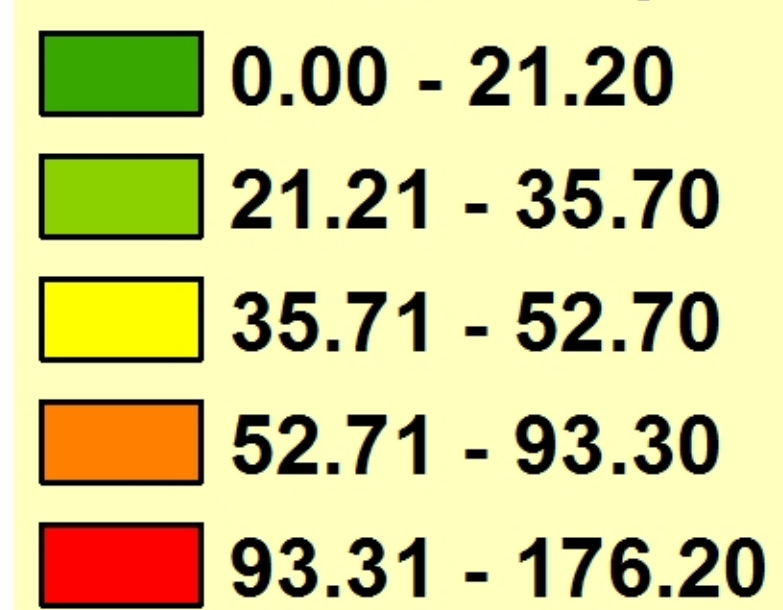

Ring Key

Age-standardized Incidence Ring
Year 2008 to Year 2012

Legend

Age-standardized Incidence Rates of Lung Cancer by Male
Per 100,000 Population by District

Study Area

Eastern Thailand
