Linking life cycle assessment to bioeconomic modelling with positive mathematical programming: An alternative approach to calibration

Takahiro Nakashima, Shoko Ishikawa

PII: S0959-6526(17)30851-X

DOI: [10.1016/j.jclepro.2017.04.124](https://doi.org/10.1016/j.jclepro.2017.04.124)

Reference: JCLP 9488

To appear in: *Journal of Cleaner Production*

Received Date: 15 February 2016

Revised Date: 28 November 2016

Accepted Date: 22 April 2017

Please cite this article as: Nakashima T, Ishikawa S, Linking life cycle assessment to bioeconomic modelling with positive mathematical programming: An alternative approach to calibration, *Journal of Cleaner Production* (2017), doi: 10.1016/j.jclepro.2017.04.124.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Linking life cycle assessment to bioeconomic modelling with positive mathematical  
programing: an alternative approach to calibration**
