Predictive Sustainability Control: A review assessing the potential to transfer big data driven 'predictive policing' to corporate sustainability management

Peter Seele

PII: S0959-6526(16)31806-6

DOI: [10.1016/j.jclepro.2016.10.175](https://doi.org/10.1016/j.jclepro.2016.10.175)

Reference: JCLP 8366

To appear in: *Journal of Cleaner Production*

Received Date: 30 October 2015

Revised Date: 26 October 2016

Accepted Date: 28 October 2016

Please cite this article as: Seele P, Predictive Sustainability Control: A review assessing the potential to transfer big data driven 'predictive policing' to corporate sustainability management, *Journal of Cleaner Production* (2016), doi: 10.1016/j.jclepro.2016.10.175.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Submission to: Journal of Cleaner Production

Special Volume on *Improving natural resource management and human health to ensure sustainable societal development based upon insights gained from working within 'Big Data Environments'*
