

Accepted Manuscript

Multi-objective optimization of thermophysical properties of eco-friendly organic nanofluids

Mohammad Amani, Pouria Amani, Omid Mahian, Patrice Estellé

PII: S0959-6526(17)31729-8

DOI: [10.1016/j.jclepro.2017.08.014](https://doi.org/10.1016/j.jclepro.2017.08.014)

Reference: JCLP 10268

To appear in: *Journal of Cleaner Production*

Please cite this article as: Mohammad Amani, Pouria Amani, Omid Mahian, Patrice Estellé, Multi-objective optimization of thermophysical properties of eco-friendly organic nanofluids, *Journal of Cleaner Production* (2017), doi: 10.1016/j.jclepro.2017.08.014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Multi-objective optimization of thermophysical properties of eco-friendly organic nanofluids
