Adsorptive removal of anionic azo dye from aqueous solution using activated carbon derived from extracted coffee residues

Kyung-Won Jung, Brian Hyun Choi, Min-Jin Hwang, Jae-Woo Choi, Sang-Hyup Lee, Jae-Soo Chang, Kyu-Hong Ahn

PII: S0959-6526(17)31761-4

DOI: [10.1016/j.jclepro.2017.08.045](https://doi.org/10.1016/j.jclepro.2017.08.045)

Reference: JCLP 10303

To appear in: *Journal of Cleaner Production*

Received Date: 19 May 2017

Revised Date: 4 August 2017

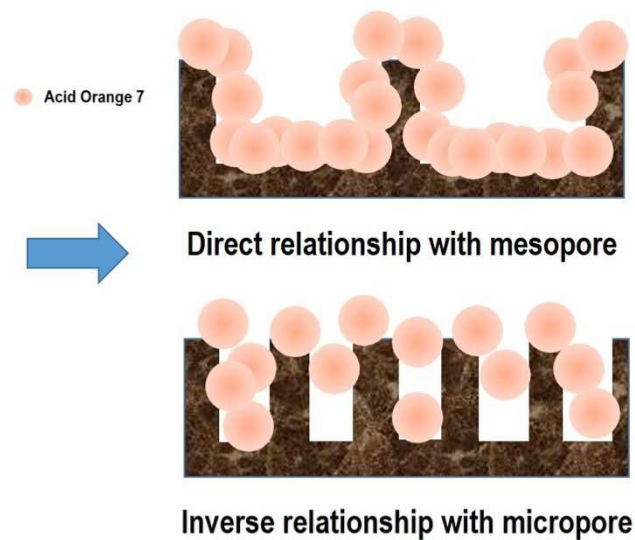

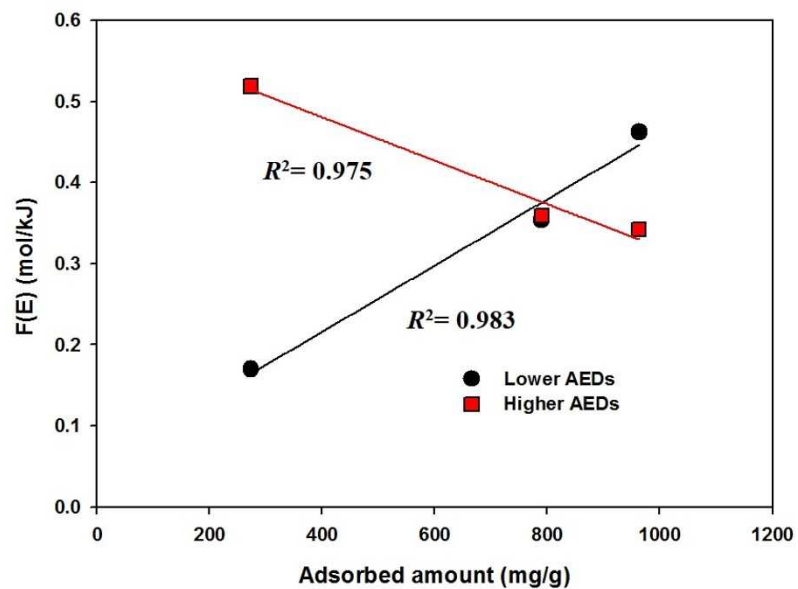

Accepted Date: 5 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical abstract

## Correlation between adsorption capacity &amp; pore size distribution
