This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Mapping the business focus in sustainable production and consumption literature: review and research framework**

### Highlights

- A systematic literature review of the sustainable production and consumption (SPaC) literature for characterizing the prevailing business focus
- The paper explores the principal themes of research for characterizing the prevailing address to the business environment issues
- Findings outline the presence of five principal themes
- The paper also develops a framework to further outline the theme-specific key implications for guiding scholarly work
