The redundancy of an industrial symbiotic network: A case study of a hazardous waste symbiosis network

Junnian Wu, Yan Guo, Chengliang Li, Hang Qi

PII: S0959-6526(17)30242-1

DOI: [10.1016/j.jclepro.2017.02.038](https://doi.org/10.1016/j.jclepro.2017.02.038)

Reference: JCLP 8964

To appear in: *Journal of Cleaner Production*

Received Date: 21 July 2016

Revised Date: 4 February 2017

Accepted Date: 5 February 2017

Please cite this article as: Wu J, Guo Y, Li C, Qi H, The redundancy of an industrial symbiotic network: A case study of a hazardous waste symbiosis network, *Journal of Cleaner Production* (2017), doi: 10.1016/j.jclepro.2017.02.038.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **The redundancy of an industrial symbiotic network: a**
2 **case study of a hazardous waste symbiosis network**
