Air emission and environmental impact assessment of Korean automotive logistics

Jaehun Sim, Jehean Sim

PII: S0959-6526(17)30984-8
DOI: 10.1016/j.jclepro.2017.05.058
Reference: JCLP 9594
To appear in: *Journal of Cleaner Production*

Received Date: 14 July 2016
Revised Date: 25 April 2017
Accepted Date: 09 May 2017

Please cite this article as: Jaehun Sim, Jehean Sim, Air emission and environmental impact assessment of Korean automotive logistics, *Journal of Cleaner Production* (2017), doi: 10.1016/j.jclepro.2017.05.058

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We consider domestic and overseas production of the finished vehicle logistics
- We estimate seven types of air emissions of the finished vehicle logistics
- We analyze the potential environmental impact of the finished vehicle logistics
- We calculate the life cycle air emission productivity of the finished vehicle logistics
