Fast and efficient oxidation of formaldehyde in wastewater via the Solar Thermal Electrochemical Process tuned by thermo-electrochemistry

Dandan Yuan, Lei Tian, Di Gu, Xiaoyan Shen, Lingyue Zhu, Hongjun Wu, Baohui Wang

PII: S0959-6526(17)30721-7

DOI: [10.1016/j.jclepro.2017.04.022](https://doi.org/10.1016/j.jclepro.2017.04.022)

Reference: JCLP 9376

To appear in: *Journal of Cleaner Production*

Received Date: 7 December 2016

Revised Date: 30 March 2017

Accepted Date: 3 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
