Influence of fly ash allocation approaches on the life cycle assessment of cement-based materials

Karina E. Seto, Cameron J. Churchill, Daman K. Panesar

PII: S0959-6526(17)30813-2
DOI: 10.1016/j.jclepro.2017.04.093
Reference: JCLP 9449
To appear in: *Journal of Cleaner Production*

Received Date: 14 January 2016

Revised Date: 13 April 2017

Accepted Date: 14 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

INFLUENCE OF FLY ASH ALLOCATION APPROACHES ON THE LIFE CYCLE ASSESSMENT OF CEMENT-BASED MATERIALS
