This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

Sustainability assessment of energy services using complex multi-layer system models

Authors:

- Stefano Coss^{1,2,3} (corresponding author)
- Clement Rebillard³
- Vittorio Verda²
- Olivier Le Corre¹

Adresses:

- 1: Ecole des Mines de Nantes, Energy Systems and Environment 4, rue Alfred Kastler 44300 Nantes, France
- 2: Politecnico di Torino, Energy Department Corso Duca degli Abruzzi 24, 10129 Torino, Italy
- 3: Veolia Recherche et Innovation, 291 av. Dreyfous Ducas, 78520 Limay, France

Keywords:

- energy services
- sustainability assessment
- renewable energy
- MRA assessment
- energy system modeling
